## This week at Paulet

The Year 13 A Level Geographers have had a great week on their field trip to North Wales this week. Judging by the photos, the weather was cold but dry.

I delivered the theme of 'Mind your own business' in house assemblies this week. I talked about the need to not engage in 'stirring, gossiping, eavesdropping, manipulation, hearsay and lying'. I discussed a couple of apposite quotes, below, and it would be great if you could discuss them further with your child(ren). I also talked about **their** business being – ATTENDANCE, PUNCTUALITY, HARD WORK, ATTITUDE, HEALTH and HYGIENE. For your interest, I have attached the presentation to this email – it might generate family discussion.

“A lie can travel halfway around the world while the truth is putting on its shoes.”

*Mark Twain*

The truth is still the truth, even if no one believes it.  
A lie is still a lie, even if everyone believes it.

Have a great weekend everyone,  
Ian McArthur  
Headteacher

EVERYONE INCLUDED

## BioCraft competition

**From the very big to the very small:** BioCraft entries can take inspiration from the smallest parts of the natural world that only a microscope can see: think cell structures, bacterial colonies and microscopic organisms. Entries could instead feature environments or ecosystems. Art could be based around great savannahs, wide-open plains, the deep oceans or immense rainforests and the huge range of diversity contained within them.

**Hands-on science:** Lab or field equipment could be the focus of your artwork, with fascinating tools and apparatus being used by scientists to provide ways to make wonderful discoveries.

**Scientific concepts:** Your art could help explain a biological concept, theory or area of biology that particularly interests you.

Closing date for entries is the 4<sup>th</sup> November 2024.  
Hand into your science teacher.
